Replacement of Heavy Duty Vehicles and Equipment
Vehicle/Equipment Cost Data
Form 2

1. Requested Rebate Grant Amount.

Please list your requested grant amount in the box provided. The grant amount being requested should be the lesser of the Eligible Costs (F) or the Rebate Grant Amount from Table (G).

--

2. Incremental Cost/Cost to Applicant Calculation.

Refer to Section 1.5 of the RFGA for an explanation of eligible costs.

Capital Cost - Vehicle/Equipment Purchase (A):	
Global Positioning System (B):	
Scrappage Value (C): <small>(The TCEQ will use a default scrap value of \$1,000 for heavy-duty)</small>	
Other Financial Incentives and Tax Credits (D):	
Incremental Cost/Cost to Applicant (E): (A + B - C - D = E)	

3. Grant Amount Calculation.

Refer to Section 1.6 of the RFGA for an explanation of the maximum rebate grant amount calculation.

Incremental Cost (Cost to Applicant) (E):	
Eligible Costs (Incremental Costs (E) X 0.8) (F):	
Rebate Grant Amount from Table (G): <small>(Please refer to the tables & instructions contained in the RFGA Appendices.)</small>	

4. Other Financial Incentives and Tax Credits.

Explain any other financial assistance to be used for the purchase or lease, such as tax credits or deductions, other grants, or any other public financial assistance. This does not include the amount you finance through a bank or other third-party to purchase the equipment.

--

5. Financing or Lease Terms for Replacement Vehicles.

Reimbursement will not be authorized for pre-payment of future periodic financing or lease payments. A grant recipient will need to either ensure that sufficient payments will be made prior to the end of the Availability of Funds to use the grant amount or structure the financing or lease agreement to allow for an up-front payment in return for lower periodic payments. CHOOSE ONE:

<p>Capital Lease Financing (equipment will be purchased and retained at the end of the lease): This option is limited to capital lease agreements with a binding commitment for the applicant to take ownership of the equipment. An option to buy at the end of the lease term, without this binding commitment, will not be considered under this option.</p>	
<p>Regular Financing:</p>	
<p>Cash Purchase :</p>	
<p>Lease: <i>(Equipment will be returned at the end of the lease. The lease must extend for at least the Activity life)</i></p>	

Replacement of Heavy Duty Vehicles and Equipment
Price Analysis For Vehicle or Equipment Being Purchased
Form 3

The price of the vehicle or equipment must be reasonable, as determined by whether the price exceeds the price normally charged for that type of vehicle or equipment absent the availability of a grant. A price comparison option must be selected on this form. You must provide an original price quote for the vehicle or equipment to be purchased or, if the purchase has already been made, a copy of the invoice or purchase order. In addition, you must provide the price comparison information required for the option chosen. Governmental entities must follow competitive purchasing laws applicable to that entity in making a grant-funded purchase.

Price Quote Guidelines

The cost information listed for the new vehicle/equipment must match the price quotes. Price quotes must be original and must have the **applicant's name** on the quote.

The **dealer should sign and date** the quote and provide contact information. Price quotes should be dated no more than three months prior to the application date.

The price quote should include specifications and prices for the standard vehicle or equipment options and additional equipment and option, to include as applicable:

- a. specifications of the vehicle or equipment;
- b. base price for standard feature vehicle or equipment;
- c. itemized list and prices for factory-installed optional features;
- d. itemized list of and price for add-on equipment to be sold and installed by the dealer (i.e. dump bed, wet kit, etc.);
- e. additional fees and charges;
- f. taxes.

1. No Price Comparison Information is Required. If you choose one of the following options, only one primary price quote must be provided. If the purchase has already been made, then a copy of the invoice or purchase order should be provided. No additional price comparison information is required unless requested by the TCEQ.

Option A: The applicant is a governmental entity and will use competitive purchasing procedures or purchase from a cooperative purchasing program. Price information from a cooperative purchasing list or a written price quote must still be provided to show the expected cost.

Option B: The requested grant amount listed on Form 2 (line # 1) does not exceed 60% of the vehicle or equipment cost.

2. Price Comparison Information is Required. If you did not choose one of the options above, you must provide price comparison information as requested under at least one of the options listed below. Choose the applicable option below and provide the requested information in addition to one primary price quote. **Machine-builder lists and/or manufacturer price estimate forms are not acceptable price quotes.**

Option C: Two or more additional original price quotes for the same make, model, and model year of vehicle or equipment from unrelated dealers.

Option D: Price information from a current government-approved price/bid list or cooperative purchasing price/bid list for the same make, model, and model year of vehicle or equipment.

Option E: Price information from a current published/advertised price list available to the general public for the same make, model, and model year of vehicle or equipment.

Option F: Documentation of prices charged for at least two recent sales to non-TERP customers by the dealer for the same make, model, and model year of vehicle or equipment. This information may include invoices or purchase orders with the identifying customer information blacked out or other written documentation (sales report, sales list, etc.) from the dealer.

Option G: No price comparison information is available. This option will be accepted only in unusual or special circumstances, such as with a unique type of vehicle or equipment available from only one source. An explanation of why no price comparison information is available must be provided below, along with a justification for why the price should be considered reasonable.

3. The TCEQ is not obligated to accept a price quote if the price does not appear to be reasonable. If the price on the primary price quote is higher than the price comparison information provided above, you must provide an explanation of why the price should be considered reasonable. If no price comparison information is available, you must explain why the information is not available and why the price being charged should be considered reasonable. The TCEQ is not obligated to accept the price listed and may deny an application where the price is determined unreasonable or may use a lower amount for determining the incremental cost for the grant. The TCEQ may use published national pricing/value guides and comparison with prices charged for other grants to determine if the price is reasonable. Attach supporting documentation.
